Dear Mr. Lake,

As a member of the Anti-Dairy Coalition I have been informed of CODEX.....another group of "money men" obviously ruled by the NWO. (my words...not Mr. Cohen's) I think the American people have a right to know what is being done to the food they eat!! I, for one, am all for educating the public on SAFE food and that means exposing CODEX for the "FRONT" they are! I don't believe your agenda has anything to do with the health of the American people!!
